REPORT OF COMMITTEE TO STUDY REVISION OF THE BY-LAWS :

The Committee has finished its work and plans to submit amended By-Laws at the regular meeting in September.

The response to the request for suggestions and criticisms that appeared in the July bulletin was very disappointing to the Committee. Due to the apparent lack of interest on the part of most of the membership, we are not including the revisions with this bulletin. All members who answered our appeal for assistance will receive a copy of the revisions as will any other members interested enough to write for a copy of them.

The area of revisions is summarized below:

Article II - Added: h. The organization shall issue a periodical publication to all members in good standing.

Article III - Section 2: This has been expanded by outlining all procedures to be followed in acceptance or rejection of applications for membership and the expulsion of members who have charges brought against them.

Article III - Section 3, 4 and 5: These sections have been reworded and portions deleted.

Article IV: Section 1a. changed to allow all Past Presidents to sit on the Board of Governors. Sections 1b. and 1c. are expanded to better cover the duties of the Officers of the organization.

(Continued on next page)

REPORT OF COMMITTEE TO STUDY REVISION OF THE BY-LAWS (Cont'd):

Article IV, Section 2. and 3.: Wording changed but no major revision. Section 5. changed in that only the President and Vice-President cannot succeed themselves in office. All other officers and staff can be re-elected or re-appointed to the same office or staff job.

Article V - Dues: This section has a major change inasmuch as it allows the Board of Governors to set the dues for each calendar year. Their recommendations must be published in the October publication and ratified by the members present at the November meeting.

Also outlined is a change in the dues paid after July 1st of each year, slight changes in handling of members in arrears and a change in when members in arrears are to be dropped from the membership rolls.

Article VI - Auctions: Changed to read as follows:
"Section 1. Auctions shall be conducted as scheduled by the Program Committee or as directed by the Board of Governors.

Section 2. The rules for the conduct of the auctions, as established by the Board of Governors, shall be available at the auction table."

Article VIII - Order of Business: Changed slightly.

As mentioned previously, copies of the complete amended (proposed) By-Laws can be obtained by writing for them.

Voting on the amended By-Laws will be conducted at the October meeting.

* * * * *

The following plea for assistance was received from Member David A. Markgraf. Anyone feeling they can be of assistance should contact David or Professor Gordus.

"I am currently working with Professor Adon A. Gordus, Department of Chemistry, The University of Michigan, Ann Arbor, Michigan 48104, who is using neutron activation analysis to determine the percentage of silver in my Umayyad dirhams. This procedure is accomplished without harm to the coins. He is using the data obtained to graph the economic history of the Umayyad Caliphate. Professor Gordus has asked me to supply him with names of any collectors of Umayyad or Abbasid coins who might be interested in supplying him with additional coins. Anyone interested should either contact me or Professor Gordus directly.

I am also working on a project of my own and I would like to request information on Umayyad dirhams minted in the year 126 A.H. I need any of the following: the loan of the coin or coins, or a photo of both obverse and reverse plus weight, or an accurate description of both obverse and reverse plus weight. Three different Caliphs ruled during this year and I am trying to compile a complete (as possible) analysis of coins of this year to determine if Lane-Poole's theory that the annulets were a code is correct."

(David A. Markgraf, 8818 So. 84th St., Franklin, Wisc. 53132)

MEMBER COIN ORDERS ACCEPTED FOR:

Angeles, Calif. 90005
- 220-MT Robert DOYLE, P. O. Box 291, Tallmadge, Ohio 44278
- 194-MT Richard LEGG, 7969 Le Mans Dr., Jacksonville, Fla. 32210
- 373-MT James H. SMITH, 13 Napier, Ave., Takapuna, Auckland 9, N.Z.
- 293-MT Thomas B. WOOLDRIDGE, X-Ray Dept., V. A. Hospital, Jackson,
Miss. 39216

AUGUST MEETING IN BRIEF & NEW ISSUES: These sections which normally appear in each bulletin will be included in the October bulletin.

* * * * *

LIST OF PAST PROJECTS AND PUBLICATIONS STILL AVAILABLE TO MEMBERS:
All items listed in August Bulletin are still available for asking.

* * * * *

3RD EDITION, CURRENT COINS OF THE WORLD: The new 3rd Edition of this standard reference commonly known as "The White Book" has just been released by Whitman. When more details are known as to availability, the book will be offered to members at a substantial savings, probably next month.

* * * * *

CLUB EMBLEM CONTEST: Several entries have been received and you still have time to get in your entry. The deadline is October 1st. See August Bulletin for details.

* * * * *

LIBRARY REPORT: Librarian Bob TOMLINSON advises that he has received several additions to the Club Library. A listing of all new items will be published in the near future. He further advised that we have received the missing copies of "Whitman Numismatic Journal" which now gives us a complete set. We are still in need of Vol. 4, No. 47 of "World Coins Magazine".

* * * * *

FOURTH ANNUAL EXHIBIT IN NOVEMBER: If you have not started your display or displays for the Exhibit in NOVEMBER, time is getting short. We request that each and every member who can attend the meeting participate by entering his or her own exhibit. See the August Bulletin for rules and ideas.

* * * * *

THIRD EDITION-1970 "GUIDEBOOK & CATALOG OF BRITISH COMMONWEALTH COINS": Regency Coin & Stamp Co., Ltd. of Winnipeg, Manitoba, Canada advises that the 3rd Edition of this popular reference book by Jerome Remick, Somer James and Anthony Dowle will not be ready until mid-December 1969. They said that many additions to the manuscript covering the India Native States and much additional information to be added to most of the countries is causing the delay.

Retail prices for the new edition will be \$9.50 for hard bound and \$7.50 for soft cover.

The book will be increased in size by approximately 40 or 50 pages. It will have a vast number of price changes because of the rapidly growing interest in all British coins. The demand for British coins has been phenomenal over the past few months. Many coins that were once considered reasonably common have become scarce and many scarce items have become rare. Extremely fine and uncirculated coins have gone from scarce to extremely rare.

SUPPLEMENT TO "FINAL REPORT OF COMMITTEE TO RESEARCH WORLD COINAGE
TYPES AND VARIETIES":

Patrick D. HOGAN reports that four new coins of China have been submitted by members and should be inserted in your China section of "The Report --". They are as follows:

CHINA, Republic: No. A52. A twenty-cash coin of the "Tientsin-Type" designed by L. Giorgi. Similar to #50, but larger and with larger denominations. English legend replaces the Chinese legend on the obverse, bottom. Copper Alloy. Issued circa 1917. Listed in Moshniagun and Zhuk, "Coins....of Asia & Africa, 19th-20th Century", No. 367. This is a new Russian language catalog. The coin was submitted by Holland Wallace.

FUKIEN: No. A16. A brass struck one-cash coin of Hsuan T'ung era (1909-11) in imitation of the style of the Kwangtung provincial issue. Reverse is illustrated in Coole's "Coins in China's History", page 57. Coin rubbing was submitted by Raymond Hu.

SZECHUAN: No. (no number applied). Brass struck coin of Chengtu, Szechuan. Dies were made at Philadelphia but were damaged enroute to Chengtu, circa 1898. It is not known if any coins were actually struck in Chengtu. Rubbing from the collection of Howland F. Bowker, who obtained the specimen from Ferracute & Co., New Jersey, who supplied the dies and machinery to Chengtu. This information was submitted by Darwin Gregory.

HUPEH: No. 1a. A die for a struck brass coin was also supplied to Wuchang, Hupeh by the Ferracute company, but was not unloaded with the mint machinery. The impatient Wuchang officials prepared their own dies and began turning out one-cash coins in lesser diameter. Presumably the original Philadelphia dies were later used as well, for I am told that both sizes are extant. Rubbings from H. F. Bowker were submitted by Darwin Gregory.

(See attached plate for drawings (by Pat Hogan) of the above coins.)

* * * * *

Hogan's Plate on the following page also covers other items about which information was published in the August 1969 issue of Numismatics International's bulletin. See Page 11 "Odds and Ends Department" of that bulletin.

* * * * *

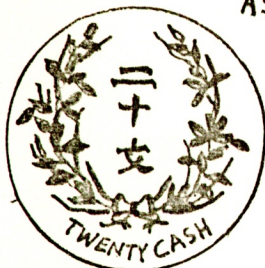

Note from "Report" coordinator, Marvin L. Fraley:

At this time I wish to extend sincere thanks to all persons who have wrote me about the "Report". Many of you have caught us on a few errors which seem to always get overlooked in any project of this size. The most obvious error was the statement on Page 103 (Philippines) concerning the mints. This error, along with a few others, and other additional information that has been submitted will be corrected during the coming months in a supplement. Once again, thanks for all the help.
